THESE PARTICULARS TO BE ENTERED BY
THE OFFICIAL TAKING THE IMPRESSIONS

APPLICANT

☒ MALE ☐ FEMALE

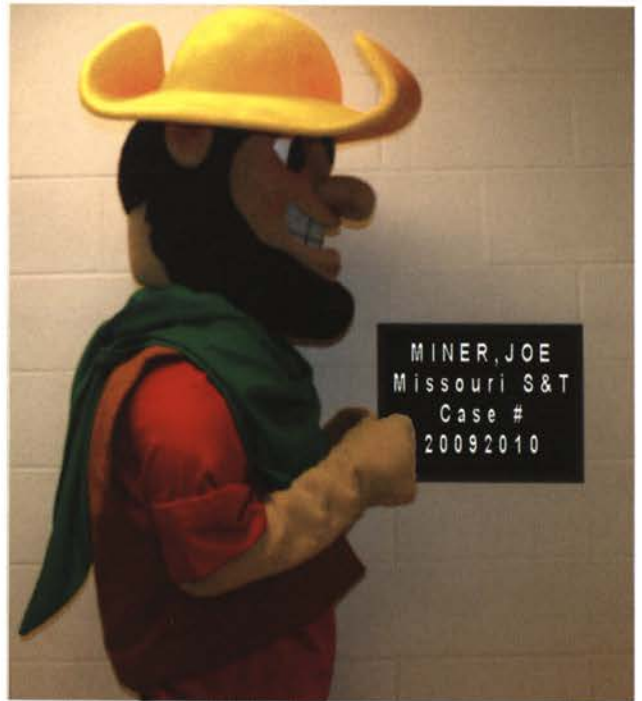

NAME

Miner, Joe

RACE

mascot

This Form must be completed in every detail before the Official concerned begins to take the finger-prints of any other person. On no account must two incomplete forms be dealt with at the same time.

RIGHT HAND

1.-Right Thumb	2.-R.Forefinger	3.- R.Middle Finger	4.-R. Ring Finger	5.-R. Little Finger
(FOLD)				(FOLD)

Impression to be so taken that the Flexure of the last joint shall be immediately above the black line marked (Fold)
If the impression of any digit be defective a second print may be taken in the vacant space above it.
When a finger is missing or so injured that the impression cannot be obtained, or so deformed and yeilds a bad print the fact should be noted under remarks.

LEFT HAND

6.- Left Thumb	7.-L.Forefinger	8.- L.Middle Finger	9.-L. Ring Finger	10.-L. Little Finger
(FOLD)				(FOLD)

LEFT HAND

Plain impressions of the four fingers taken simultaneously

RIGHT HAND

Plain impressions of the four fingers taken simultaneously

				LEFT THUMB	RIGHT THUMB

Jack Hanna and Friends

Jungle Jack Hanna came to Rolla in October and he brought some of his favorite animal friends. A frequent guest on "The Late Show" and his own "Jack Hanna's Into the Wild" have fascinated audiences. This zoologist has a keen sense for understanding animals.

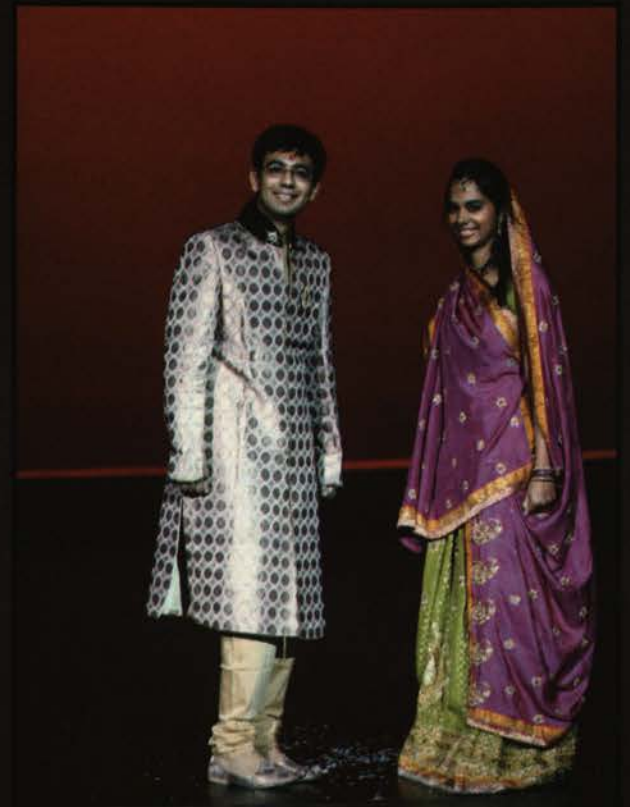

Diwali Night

Diwali is the Indian festival of lights. It is celebrated every year on the MS&T campus by the India Association. The night is filled with a display of color, fashion, dance, music, and fireworks followed by some authentic food. The India Association puts in a lot of work so the whole student body can enjoy their displays.

Fashion, food, and fun sums up the event.

Dancing is a
large part
of Indian
culture, and
it takes
many forms.

Greek Week

Every year the greek community at MS&T gets together to celebrate being a part of their respective organizations and being a part of a special group on campus. They play games, elect godz, make floats and compete in the greek games. Not to mention the official greek parties! Being greek is more than just being in a club, it's a bond that can't be easily broken.

Tour of Missouri Bike Race

The Tour of Missouri Bike Race is held annually for professional bikers to take on the natural terrain of the state. One of the stops along the way is Rolla. The bikers cross the finish line and start the party. At the finish line there's food drinks and games until it's time for the cyclist to be off to their next town.

Beauty and the Beast

Tale as old as time... song as old as rhyme... Beauty and the Beast was brought to life on stage at MS&T. The actors were as great as the classic story itself. The costumes and sets brought the audience in and with their help they saved the beast!

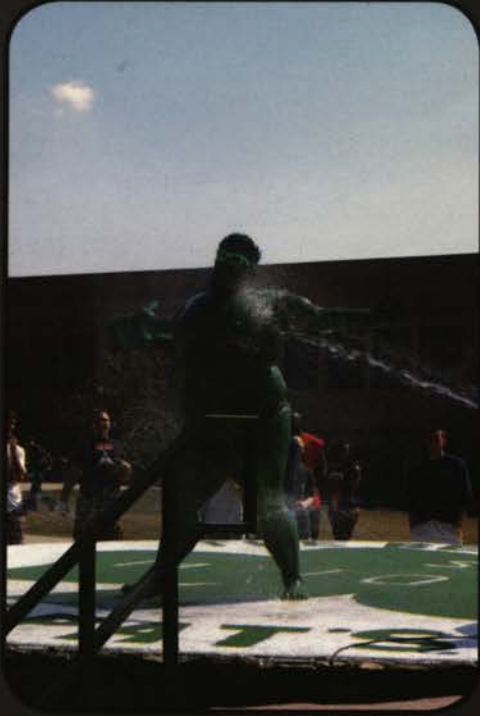

St. Pat's: 102nd Best Ever

MS&T students have been celebrating St. Pat's in style for 102 years now. Every year becomes "the Best Ever." The countdown to the next one starts as soon as the present one is finished. Nobody truly understands Pat's until they celebrate in Rolla.

Student Leadership Banquet

The Student Leadership Banquet takes place at the end of every school year to recognize the leadership of various clubs and organizations based on their commitment to MS&T. The event starts with a meet and greet and dinner then awards.

International Students Day

International Students Day is in March. Various clubs are asked to come and perform a cultural dance or song, and participate in the fashion show. There are also booths for students to learn about cultures other than their own. This event has been steadily growing every year.

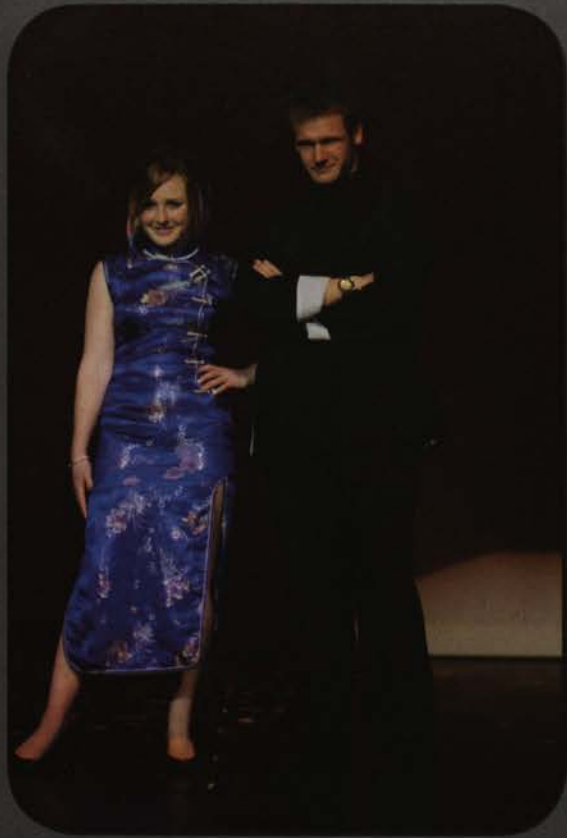

Chinese Spring Festival

The Chinese Spring festival is held each year shortly after the Chinese New Year. Dancing, singing, and short plays are preformed. After the show dinner is served with traditional food.

KMNR Masquerave

KMNR is a student run radio station. They put on a party every where they go, but specifically host Masquerave every year. It is different each time, and the students have fun dancing and dressing up.

Spring Concert

The MS&T music department is small but thriving. They hold a series of concerts every year for the enjoyment of students and other listeners. A talented group of brains show that they can do more than just science, and show off their stuff.

Seventh Row: Fawn Kostal, Ally Nissen, KYLee White, Brooke Taylor, Lara Hrenak, and Loren Rodenberg. Eighth Row: Kristina Glenn, Sarah Diehl, Jen Glotz, Erica Collins, and Brittany Saulnier.

Chi Omega

Student Life

Edited by Sarah Jameson

Opening Week

Freshmen Rule

Students run across the finish line for Project X.

Opening Week is the annual event for freshmen to come and learn about campus life through a variety of activities. Freshmen are broken up into teams where they make friends who help them win in the various challenges such as the Amazing Miner Race and Project X. This year's theme for Project X was Being Green. Teams designed their cars using recyclable materials such as cardboard or aluminum cans.

Teams race around Butler-Carlton collecting puzzle pieces.

Teams gathered to plan and talk about the day's activities.

Rolla Inn Thanksgiving

Having a good time.

Chowing down on some pie.

The Rolla Inn was used this year to house students who didn't have room in the other residence halls. They became known as the Rolla Inn Empire. Even though by Thanksgiving they had almost all found places elsewhere, they decided to gather for some good food and fun with old friends.

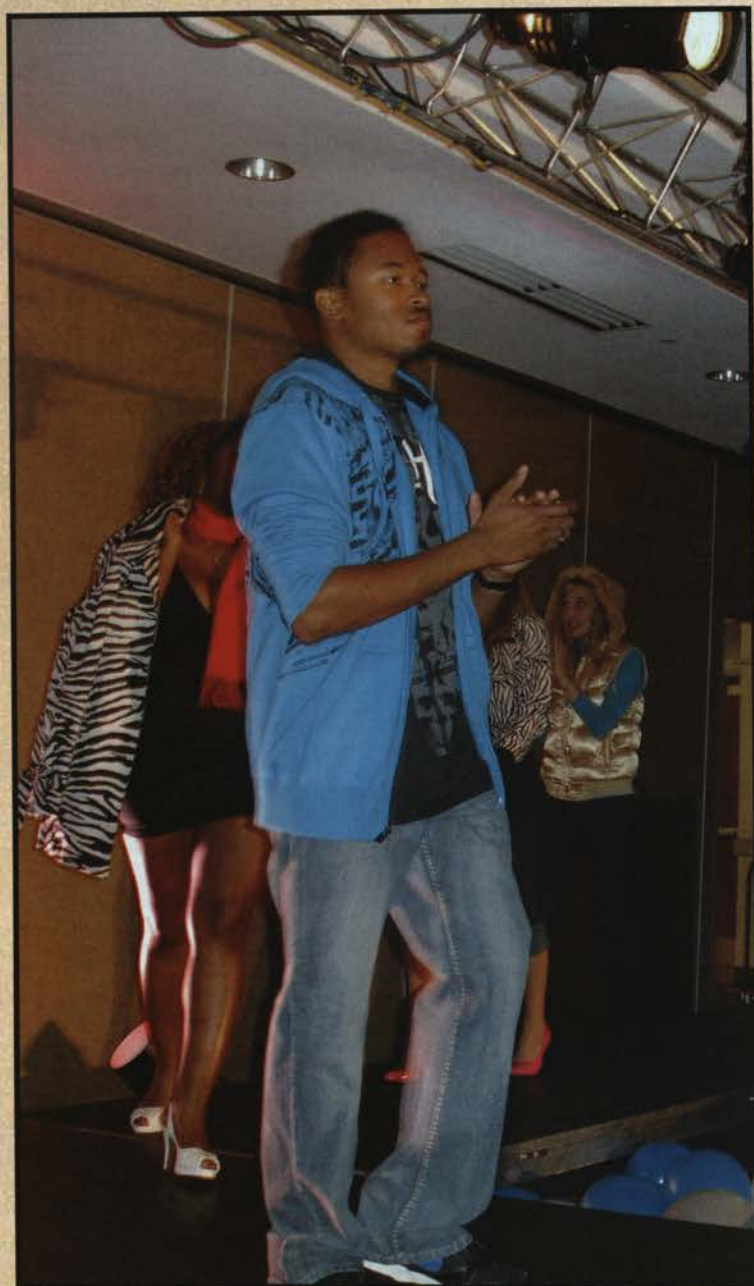

Wave your hands in the air.

Good friends and good food.

Association for Black Students Presents: The ABS Fashion Show

Left:Pausing to give everyone a good look at fashion.

Above:Walking down the runway showing off men's fashion.

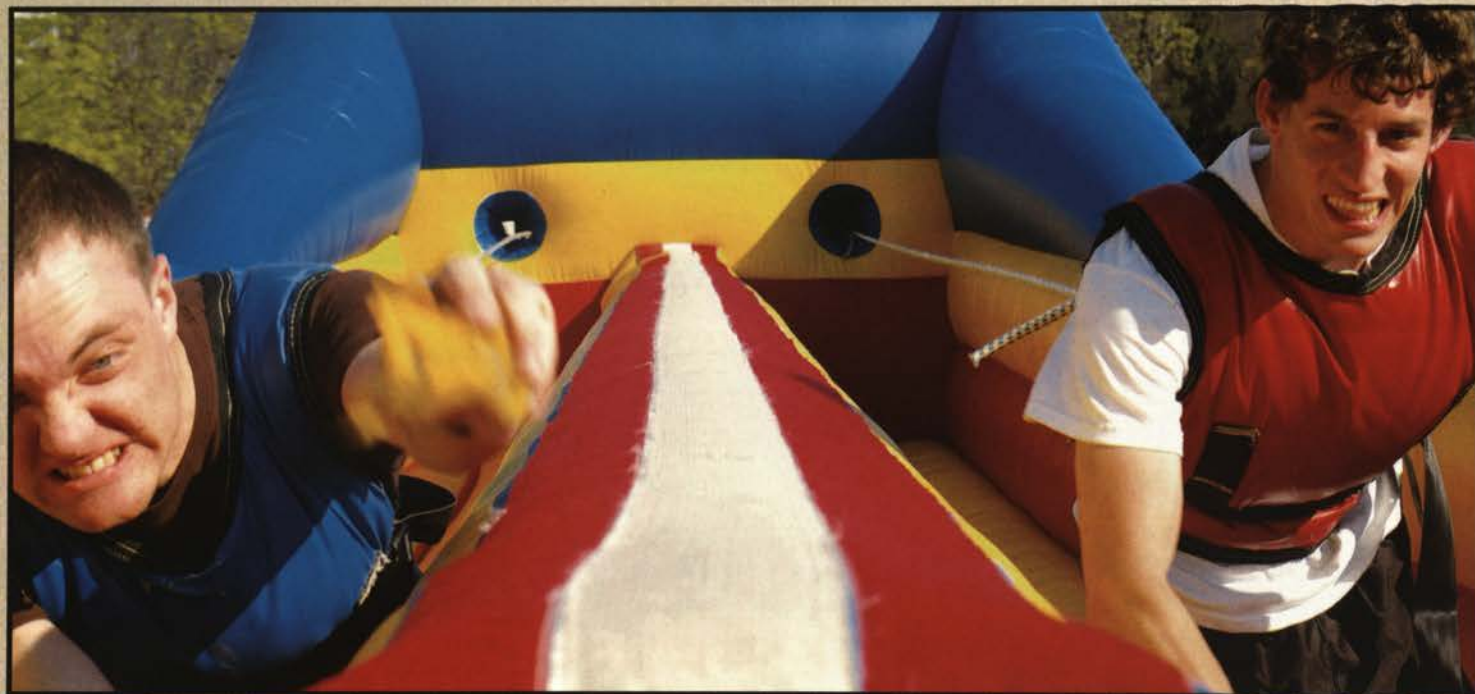

The ABS Fashion Show was a success this year raising money. Many students modeled the fashions made to fit especially for them and many more showed up to admire the handiwork.

Left: Strutting her stuff down the runway.

Below: Strike a pose.

Block Party

Above and Below: Playing on the inflatables.

Students had a fun time during the Spring Semester at the Block Party that took place outside the Havener Center. There were inflatables and games and the front lawn as well as food to keep the party going.

Right: The giant crawfish seen around campus.

Below: Having fun on the Havener lawn.

Salsa Night

Dance the night away...

Students could go to the Havener Center on certain nights and learn how to Salsa dance from their peers. In a few hours, students could learn a variety of steps that could be used on any dance floor.

Take it slow: learn without music first.

Left and above: Students partner up to learn.

Below: Students learn different moves switching partners every so often.

Faculty Talent Show

Above: A tap dancing teacher who received many compliments from those who came to watch.

Right: Selling refreshments to raise money for the EWB.

The Engineers Without Borders put on the Faculty Talent Show again this year to raise money for their work in third world countries. The show was a big success this year with the faculty receiving many compliments for their various talents.

The EWB informs people of problems in third world countries and raises money to go and help these countries with things like setting up a clean water source.

Two teachers dance with feathered fans.

Snow Ball

"A Night in Paris..."

Snowball this year was a great success with fun for all. The DJ's played songs from various genres and eras to please everyone ushering everyone out with final song "Closing Time". Everyone who came was given a free glass with a picture of the Eiffel Tower and this year's theme—"A Night in Paris".

The Snowball King and Queen smile for the camera.

The cake with the night's theme.

Right: Some people prefer to sit out and people watch.

Below: Many danced all night long to songs from various eras. The Swing Dance class really showed their stuff during this night.

St. Pat's Alt

Late Night Pancakes

Students cooked up the pancakes in the kitchen using green food coloring.

They served it up to anyone who came.

Young
and old
alike
enjoyed
the
great
food MST
students
cooked
up.

St. Pat's Alt this year was called Blarney Bash. Students and people from the community came to enjoy a late night breakfast cooked up and served by students of the MST community.

Dozens of students came to enjoy a late night feast.

Earth Day

Going Green

Rolla's annual Earth Day celebration allows local students from the Rolla area to come in and learn about Going Green. College students teach the younger children about recycling, solar energy and the dangers of littering. Students could re-pot their own plant and take it home.

Chartwell's Farmer's Market

Solar Car Team teaches about solar energy.

Local students learn about recycling from a water bottle.

Humans v. Zombies

The Dead Walk....

Planning is essential to surviving an outbreak of the H1Z1 virus otherwise known as zombification.

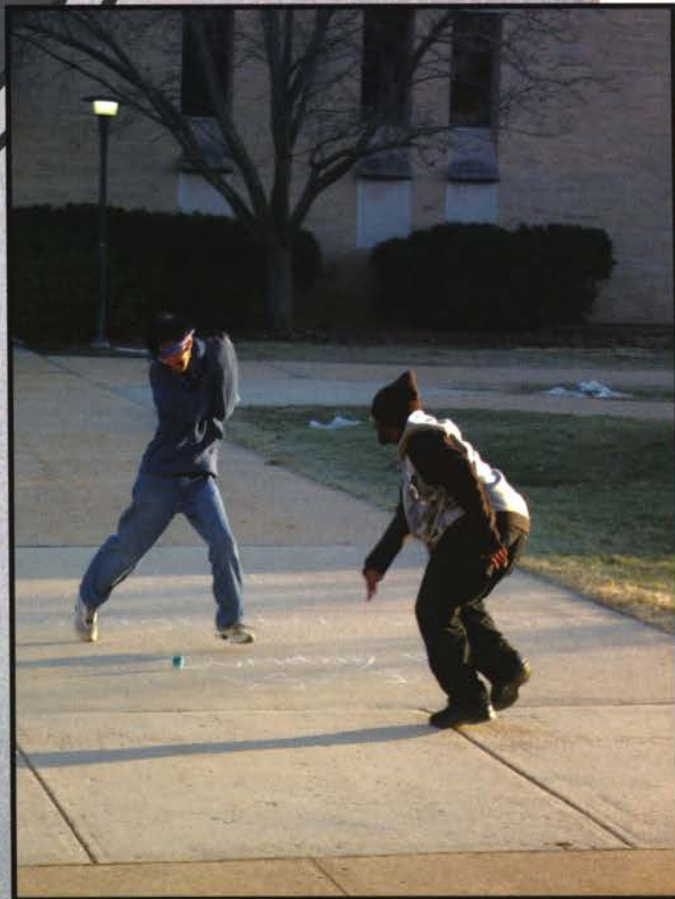

Always travel in groups. It's safer that way.

Zombies took over the campus for a week this winter while human survivors battled them off in a campus wide game called Humans vs. Zombies. This game happens once a semester and starts with everyone human and one initial zombie. Zombies wear a bandana on their forehead and zombify others with a touch. Humans wear bandanas on their arms and can stun zombies by throwing balled up socks or, after a special mission, with the use of Nerf guns.

The zombie hoard looks for its next victim.

Battles like this were common that week.

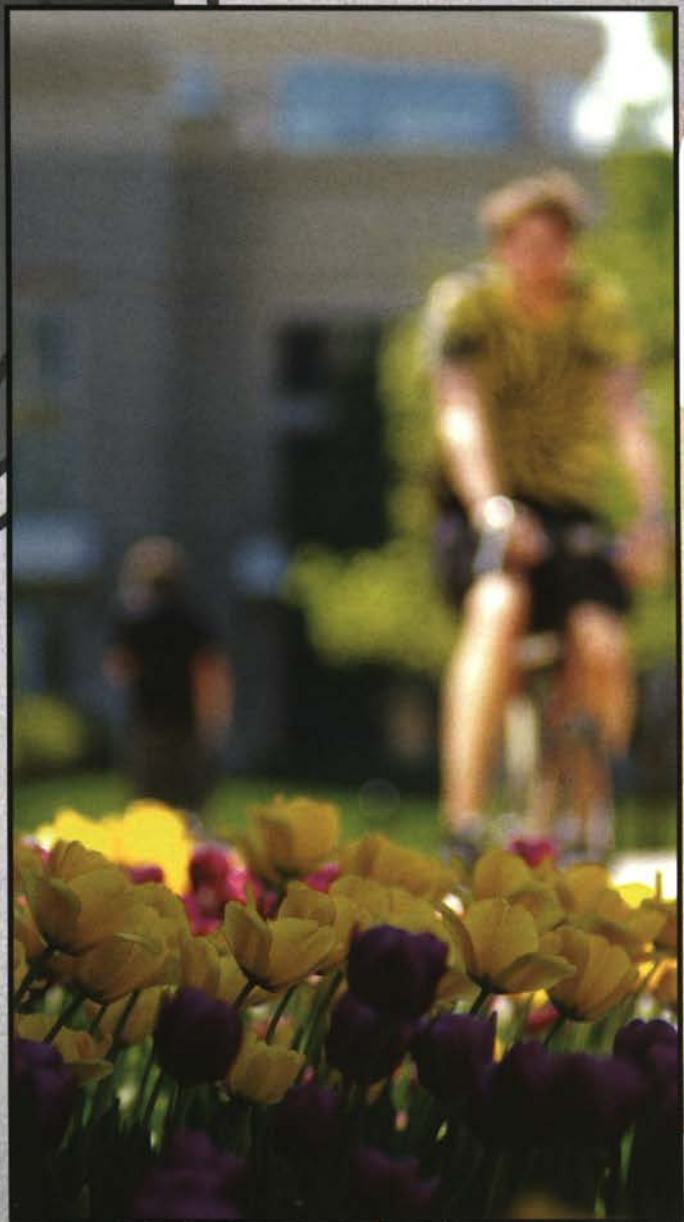

Around Rolla

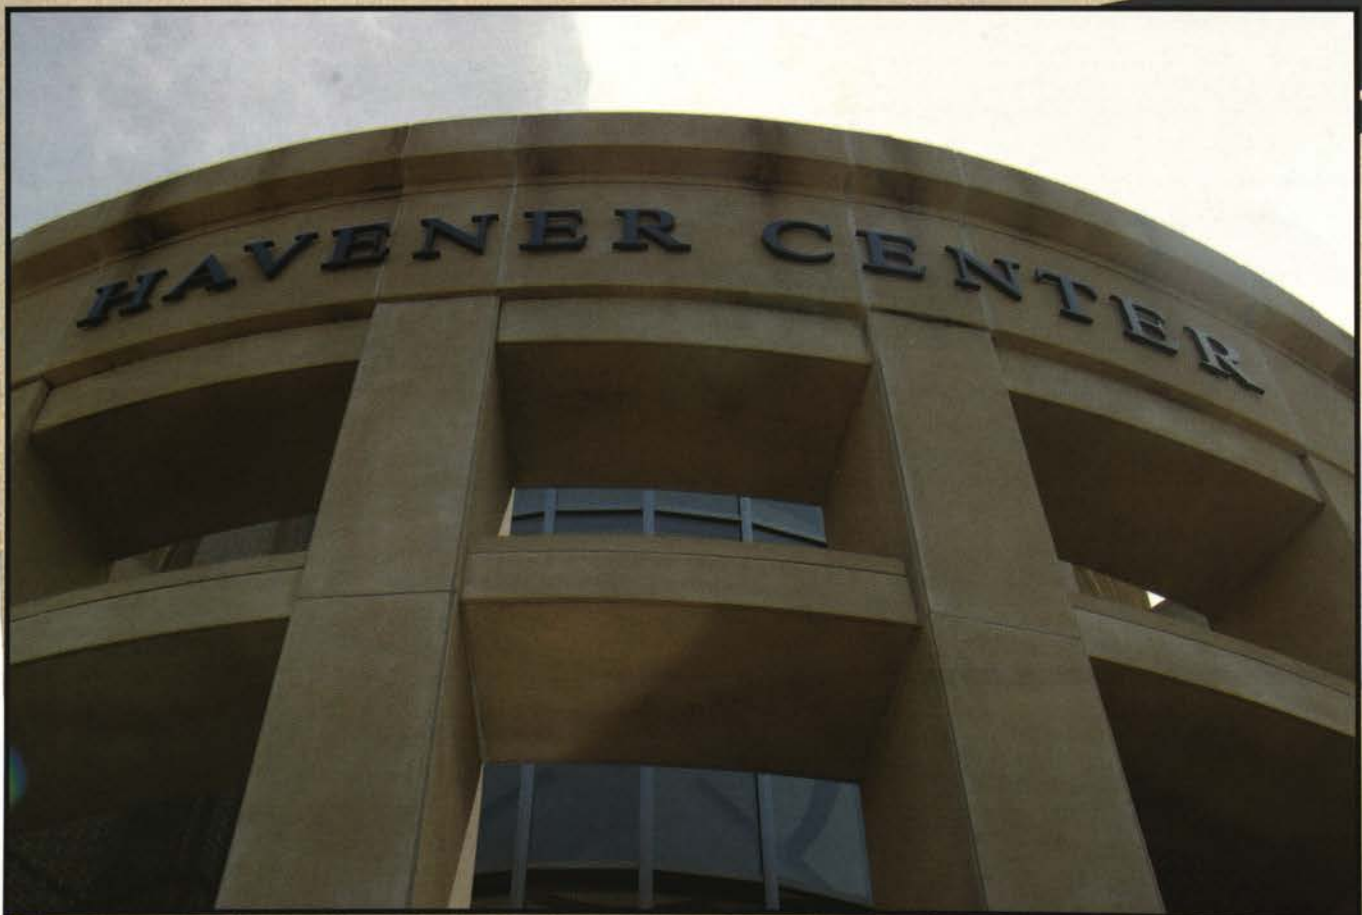

Rolla is home to students while they're going to school at MST. Whether it is winter or spring, students can always find something to do around campus or in town.

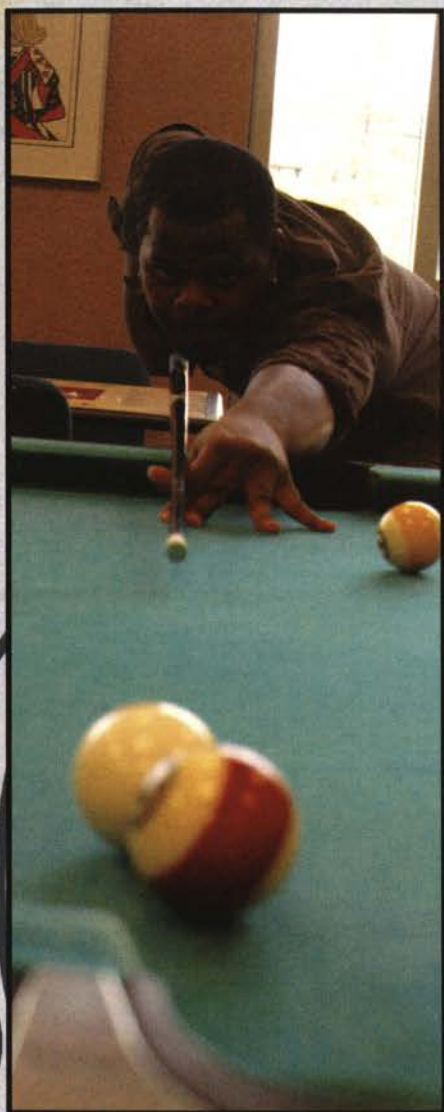

Havener Center

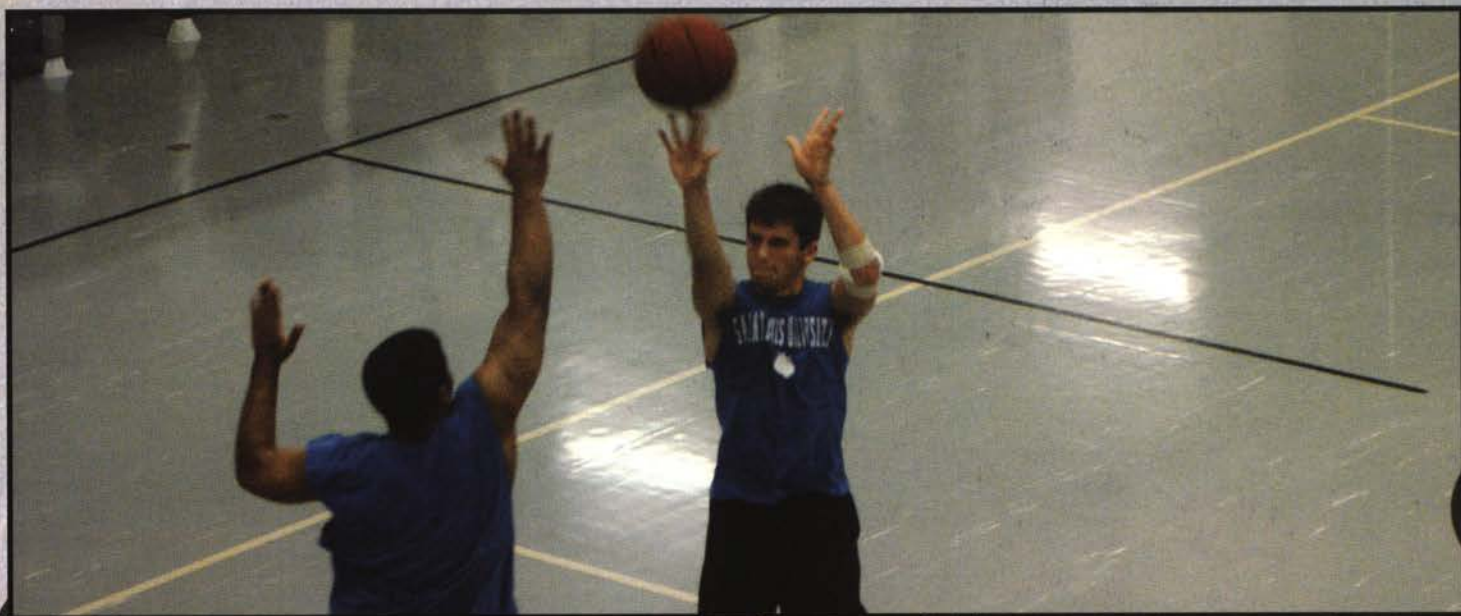

The Havener Center is the popular gathering place for students to talk, eat or play a game of pool or ping pong.

Recreation Center

The Recreation Center is where students go to have fun and work out. There are a variety of activities for students including basketball, badminton, volleyball and table tennis.

Declassified Files:

The following images have been taken by field agents determined to understand how 'The Faculty' behave when students are not around. The following images may surprise you

Despite the serious nature of 'Faculty' pictures, sometimes a funny face or two will slip past, as seen above

Declassified Files:

As this evidence suggests, even the S&T faculty need a break from serious academia to explore their creative sides, or at least do crazy things for the right charity.

Images taken from the S&T Faculty Talent show

GRAD FINALE

Grad Finale is an event hosted every year by the Miner Alumni Association. The association provides free food, drinks, and door prizes to graduating seniors. This year, the event was held on Thursday May 6th and Tuesday May 11th. Many soon-to-be graduates gathered to eat, socialize with classmates, and reminisce about their college experiences.

Horner & Shifrin, Inc.

Horner and Shifrin, Inc. is an engineering firm based out of St. Louis. This semester, the company posed as a client for senior design teams consisting of Civil and/or Architectural Engineering students. Each team was assigned the task of completing the entire architectural design of a municipal complex, consisting of a fire station and city hall.

One senior design team in particular consisted of Michelle Scheibel, Architectural Engineering; Colin Douthit, Civil and Architectural Engineering; Ryan Sadil, Civil Engineering; Jesse Baumann, Architectural Engineering; Travis Kayser, Civil and Architectural Engineering; Christopher Mathews, Civil Engineering; Aaron Huey, Civil Engineering; Kyle Kammer, Civil Engineering; Derek Bell, Civil Engineering; and Eric Shelton, Civil Engineering. Together they worked with Brian Heideman, a representative from Horner and Shifrin, Inc. Heideman traveled to Rolla several times throughout the semester, to answer questions and attend the team's presentations.

Scheibel, who worked on the heating ventilations and air conditioning design for the project, stated that communication was a major hurdle for the team. When asked about difficulties they encountered, she answered "With people working on the individual design tasks, it was difficult to make sure everyone was on the same page." To combat this issue, the team made it a point to inform their team leader of any changes and make sure to send updated drawings and documents to the rest of the group. Even though the team had some communication issues, overall they felt their project was a success. Everyone worked hard on their individual tasks as well as the portion of the project that needed to be completed as a team. The finished project received the second highest grade out of the six senior design teams involved. The project was challenging, but this team's hard work paid off!

Life After Graduation

For many graduating seniors, life after graduation is a mystery. A select group receive full-time job offers or are accepted into graduate programs. Some graduates, however, continue their job searches after college, persist in applying to graduate schools, or go on to pursue other projects. Class of 2010 graduate Brittany Harrington, on the other hand, knows exactly what she will be doing after graduation.

Harrington, an Architectural Engineering major, graduated in May of 2010. She received a full-time offer from JE Dunn Construction, a company based out of Kansas City, in October 2009. The company works on a variety of projects from coast-to-coast and provides construction management services to many different companies and organizations. Harrington spoke with representatives from JE Dunn Construction at the Career Fair the previous year and was offered a summer internship. This year, she received an offer via email to work with the company as a Field Engineer after graduation. When asked about the offer, she said "I guess they thought I did a good job, so they hired me back." Harrington plans to start work with JE Dunn Construction on May 18th, only three days after graduation. She is excited for this new chapter in her life and feels well prepared to start her career.

While many graduates look into the next chapter of their lives with uncertainty, Harrington has a hopeful and excited outlook for her future. Good luck to her and all of the class of 2010 graduates; we wish you luck and success in anything you set out to do.

Amber Loftis
Major: Chemical Eng.

Erik Lorince
Major: Aerospace Eng.
Minor: History & Mathematics
Favorite Missouri S&T Memory:
Accepting a co-op with Fisher Controls

Kirsten Luer
Major: Electrical Eng.
Organizations: Tau Beta Pi
Favorite Professor: Dr. Erickson

Andrew Luke
Major: Metallurgical Eng.

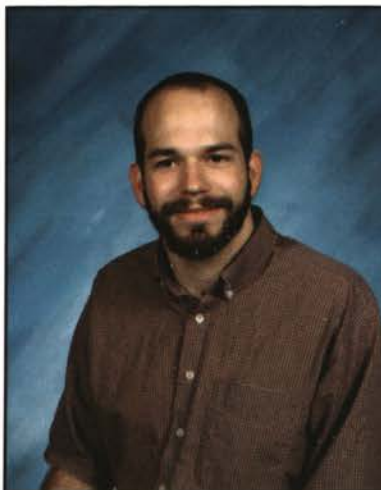

Dwight Maness
Major: Mechanical Eng.

Rolla's Most Wanted

These are dangerous suspects. Armed with cameras and willing to take any shot, they are to be observed from a distance. Engage these agents at your own risk, for you may appear in their book. They have been seen at various events, involved in many secret organizations, and have infiltrated public ones as well. They are discreet when they need to be making it hard to tell where the next shot will come from. For more information on these or any other RollaMo agents contact their offices at 573 341 4279 or rollamo@mst.edu. To get ahold of their top secret book go by the offices at 217 Altman Hall in the Quad.

Editor's Note

As this year's Editor-in-Chief, it was my mission to create a lasting memory for the students and faculty. I feel this is a mission accomplished.

Unfortunately you can never include every person and event on campus, and this year was no exception. We had some things left out because of miscommunication. This is a constant battle, but hopefully next year will be better.

This year's staff did an amazing job, especially considering our late start! This was my first and last year as E.I.C- being a senior I must pass the torch. I believe next year's book will be just as great, and our young staff members will be seasoned pros by then. I've enjoyed my years here at UMR/MS&T and have loved working on the RollaMO. I hope that you love going through it at least half as much as I enjoyed making it. The memories on these pages are nothing compared to the stories behind the pictures, all the experiences, fun, and excitement. A picture may be worth a thousand words, but that just doesn't seem to be enough.

So as my last duty as E.I.C. I pose a mission to you, the reader. Your mission, should you choose to accept it, is to read and reread this book cover to cover. Find your friends, your clubs and tell and retell the stories that go with the pictures. Then when you've done that go out and make some more great memories!

Sincerely,

Michelle R. Brosnahan

Michelle B.

E.I.C. RollaMo

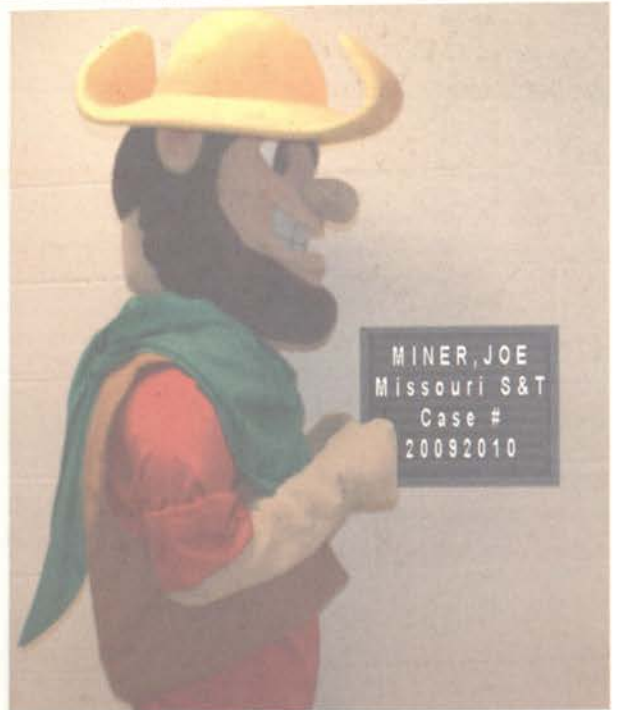

THESE PARTICULARS TO BE ENTERED BY
THE OFFICIAL TAKING THE IMPRESSIONS

APPLICANT

NAME miner, Joe
RACE mascot

This Form must be completed in every detail before the
Official concerned begins to take the finger-prints of any
other person. On no account must two incomplete forms
be dealt with at the same time.

RIGHT HAND				
1.-Right Thumb	2.-R. Forefinger	3.- R. Middle Finger	4.- R. Ring Finger	5.-R. Little Finger
(FOLD)				(FOLD)

Impression to be so taken that the Flexor of the last joint shall be immediately above the black line marked (Fold)
If the impression of any digit be defective the second print may be taken in the vacant space above it.
When a finger is missing or so injured that the impression cannot be obtained, or so deformed and yields a bad print
the fact should be noted under remarks.

LEFT HAND				
6.- Left Thumb	7.-L. Forefinger	8.- L. Middle Finger	9.-L. Ring Finger	10.-L. Little Finger
(FOLD)				(FOLD)

LEFT HAND	RIGHT HAND
Plain impressions of the four fingers taken simultaneously	Plain impressions of the four fingers taken simultaneously
